About This Game

This demo content the first part and first Boss of the game

Exodus is a 2D Platform/Exploration (metroidvania) game for Windows, with oldschool gameplay mechanics, and HD native resolution (1920*1200). Musics are made by Yann Van Der Cruyssen (Saira, Block That Matter).

You can choose between a male character, Zoulux, or his girlfriend, Ly'sax, depending on your favorite alien (or gender).
The choosen character will get out of his capsule, in a wild and a somewhat hostile environment.
Soon enough, a leader of Exodus will contact you from his capsule, asking you to help Exodus' inhabitants.
And you'll be on your way.

Main Features

-**Metroidvania** mechanics : **Platformer** control (jump, crouch, sneaking, attack, etc...), and in our case a big part for **exploration**.

-Unique **visual** style.

-Skills evolution with **skill-trees**, using evolution points (Vital energy in the game) that can be found in the environment or by killing monsters.

-Collected evolution points are **lost on death** (but they can be **recovered** if you can reach them without dying again), but

activated mechanism are not reseted on death.
