About This Game

Thugs take over the police and now rule the city. People who don't respect their law pay with their lives.

This is a third-person shooter game in which you can attack enemies using melee and fire weapons.

Use any weapons you find and can use against the thugs. Show no mercy. They will show no mercy on you.

Find all enemies in each scene and kill all of them to proceed to the next level.

Watch out! You can run, walk, or move slowly. But it is better to move slowly. This way thugs will not hear your steps, and you can catch them in surprise by giving a precise attack or a melee attack on the head, or a headshot.

Features

- Third person shooter game controls
- Fight enemies with melee and fire weapons
- Dodge enemy attacks using the roll movement
- Block enemy attacks using melee weapons
- Use aim to get a better shot on enemies
- Kill enemies instantly using guns with a headshot

Warning: The game is in early access version yet, if you are an experienced player, you can probably finish this version in 10

lawmaker thugs

The game is about 10 minutes long right now.
It might be better later but what is there is very basic.
Copy pasted dudes who rush the player slowly.
This needs a ton of work to be worthwhile.
